Annotated Bibliography

“All You Need To Know About Harajuku Style.” *RebelsMarket Blog*,

www.rebelsmarket.com/blog/posts/harajuku-style-what-is-it-all-about.

The article was heavily based on the reason of Harajuku fashion. There was a how-to for dressing in the style. The message of the article inspired me for the flash fictions and articles I wrote that promoted expressing yourself.

Bain, Marc, and Marc Bain. “Japan's Wild, Creative Harajuku Street Style Is Dead. Long Live Uniqlo.” *Quartz*, Quartz, 14 Mar. 2017,

qz.com/909573/japans-wild-creative-harajuku-street-style-is-dead-long-live-uniqlo/.

The title to the article was quite depressing and controversial, I was able to gather bits and pieces of information. I learned the reason Harajuku grew popular was because magazines were published and available to all audiences. “FRUiTS” was the name of the magazine company. We incorporated the style and themes of FRUiTS into our history and english part of our project.

Baker, Lindsay. "Culture - The Outrageous Street-Style Tribes of Harajuku." *BBC*, BBC, 3 Oct. 2017,

www.bbc.com/culture/story/20170920-the-outrageous-street-style-tribes-of-harajuku.

An article about the rise and fall of FRUiTS Magazine. This page was all about the head photographer, Shoichi Aoki.

Castillo, Romano. "What Is Harajuku Fashion?" *GushGush*, Admin, 9 May 2018,

gushgush.com/blogs/news/what-is-harajuku-fashion.

The article contained basic information about Harajuku. The reason to start the trend and where it takes place were the main focal points of this short article. I used this for a general idea of the Harajuku fashion culture.

"Harajuku, Tokyo: The Cosplay and Fashion Capital of the Universe! – Japan Info." *Japan Info*, jpninfo.com/5912.

The webpage talked more about harajuku and the evolution of Japanese fashion. It also mentioned popular meeting spots for people who partake in Harajuku hang out at, and types of harajuku cultures. I focused more on the different types of subcultures to help think of ideas for our harajuku outfit.

"Harajuku• Center of Teenage Fashion and Cosplay Culture." *Tokyo Travel: Harajuku*,

www.japan-guide.com/e/e3006.html.

This website was an informative destination guide for Harajuku Station. It explained the

surrounding attractions such as restaurants, parks, stadiums and clothing shops.

Komatsuzaki, Takuro. "Takeshita Street: Where Harajuku Fashion Began | MATCHA - JAPAN TRAVEL WEB MAGAZINE." *MATCHA*, MATCHA, 21 Mar. 2019, matcha-jp.com/en/16.

An informative destination guide. I used the pictures on the website, which contained large crowds, as a reference for a draft of my flash fiction story.
